

COMPLIMENTARY INVITATION!

Friday, February 7, 2020 — 1pm-5pm — NYC

OUR SYMPOSIUM

We are all excited by the ways technology enables new lifestyles, business models, and aesthetics. VR/AR, AI, Deepfakes, Generative Art, Cybernetics, Blockchain, Crispr, and other emerging arts are making the future. We invite you to alter your perspectives by seeing the world through the eyes of amazing achievers in various fields. Have courageous conversations off the record. Seek epiphanies.

32 DELEGATES

Founders, CEOs, Inventors, and Creative Directors — our participants are all principal creators of products which impact the lives of many. There is no application online; invitations by referral only.

PRESENTATIONS

This year, we plan to explore:

1. Perception of Real and Virtual Worlds
2. Digital Technology and Generative Art
3. Connecting Humans to Machines
4. The Future of Media as a Source of Truth

DISCUSSION RINGS

You have been invited because we believe your thoughts will make the day greater for others. During break times, delegates will be organized into circles of 8, for discussion about the preceding talks. Playing with new ideas can make them stronger — don't be shy about sharing your thoughts!

OFFLINE Q&A BOOTH

We do not have realtime Q&A, but you may ask questions or share additions in a video interview. After the event, we forward questions to the presenters for followup. They respond via Skype, and we edit the entire discussion as one coherent video. This process gives everyone ample opportunity to ask questions, and lets the presenters have adequate time to prepare quality responses.

DOPAMINE DETOX

A playground for the mind, our unadvertised retreats are an opportunity to consider new directions for the most important projects, while having exploratory off-the-record discussions with colleagues. Turn off your devices. There will be No WiFi access, no selfies, no recordings, and no press. Relax.

ROADMAP

This year's pilot event is limited to 32 delegates by invitation, to ensure a hand-picked room of wonderful people. We will double capacity each year until our final size of 512 in 2024. Eventually, we will run an annual 4-day retreat. We are honored to have your participation from the very start!
